ABHISHEK PARMAR

Frontend Engineer | React.js | TypeScript | Next.js
+91 7039875277 | abhishekparmar220197@gmail.com | LinkedIn | GitHub | Pune, Maharashtra

PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with 5+ years of experience delivering scalable, accessible web applications using React.js, Next.js, TypeScript, Redux, and AJAX. Proven track record across insurance, ERP, HRMS, and logistics domains. Adept at building reusable component libraries, integrating third-party APIs, and mentoring junior developers. Passionate about performance optimization, WCAG accessibility, and clean, testable code.

EXPERIENCE

Apexon Oct 2024 – April 2026
Software Engineer | Pune, India

- Architected and maintained responsive insurance platform UIs using React.js, Redux, TypeScript, and AJAX, serving 1K+ policyholders across 3 product lines.
- Built a library of 10+ reusable UI components with React Hooks, reducing feature delivery time across teams.
- Integrated core banking systems and BillDesk payment gateways using AJAX-based async calls, enabling end-to-end secure transactions with 99.9% uptime.
- Implemented WCAG 2.1 accessibility standards across key modules, expanding compliance coverage.
- Collaborated with backend engineers in Agile sprints, consistently delivering features 05–10% ahead of schedule.

Assimilate Technologies Pvt Ltd Mar 2024 – Oct 2024
Software Engineer | Pune, India

- Led the front-end revamp of the KDMC ERP healthcare module using AJAX for dynamic data fetching, reducing UI-related support tickets by 35% post-launch.
- Enforced healthcare data privacy standards (HL7-aligned UI practices), ensuring zero compliance violations during audits.
- Mentored 3 junior developers in React best practices, AJAX integration, component architecture, and state management, cutting onboarding time by 2 weeks.
- Established code review cadence and knowledge-sharing sessions that improved overall code quality.

iorta Technology Solutions Feb 2023 – Jan 2024
Software Engineer | Mumbai, India

- Developed KYC onboarding module using React.js and AJAX, reducing manual document verification time by 50% for 1K+ new users monthly.
- Integrated BillDesk payment gateway via AJAX calls for insurance premium collections, processing 5,000+ transactions per day with zero critical failures.
- Built a reusable Image Crop & document upload component, decreasing invalid document submissions by 20%.
- Ensured cross-browser compatibility and responsive design across Chrome, Firefox, Safari, and Edge; reduced browser-specific bug reports by 15%.
- Wrote unit tests using Jest and React Testing Library, achieving 70%+ code coverage on critical modules.

Waycool Food and Products Pvt Ltd Jan 2021 – Jan 2023
React Developer | Bangalore, India

- Contributed to HRMS modules covering onboarding, payroll, and attendance for 2,000+ employees; reduced HR processing time by 20%.
- Built shipment tracking and inventory dashboards using AJAX for real-time data updates, handling 500+ daily shipments across 10 states.
- Developed travel management workflows (booking, itinerary, expense reporting) used by 300+ employees monthly.
- Created VAPT security dashboards visualizing audit logs and vulnerability metrics, improving security review efficiency by 30%.
- Improved app performance through modular refactoring and Webpack optimization, reducing bundle size by 25%.

TECHNICAL SKILLS

Frameworks: React.js, Next.js, React Native, Redux, React Query
Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, AJAX
Styling: Tailwind CSS, Bootstrap, CSS Modules, Styled Components
Testing: Jest, React Testing Library (RTL), Vitest
Tooling: Webpack, Vite, Git, GitHub, Figma, CI/CD (GitHub Actions)
Accessibility: WCAG 2.1, ARIA, Semantic HTML
Backend: Node.js, Express.js, MongoDB, REST APIs, GraphQL (familiar)
Platforms: Vercel, AWS (basic), Agile/Scrum

PROJECTS

Insurance KYC Portal — *React.js, TypeScript, AJAX, BillDesk API*

- End-to-end KYC + payment flow for insurance onboarding using AJAX for seamless async verification; reduced verification TAT from 3 days to 4 hours.

HRMS Dashboard — *React.js, Redux, Chart.js, AJAX, REST API*

- Full-featured HR management system with role-based access, payroll computation, and real-time attendance analytics powered by AJAX-driven data fetching.

Logistics Tracking Platform — *React.js, Node.js, MongoDB, AJAX*

- Live shipment tracking dashboard with AJAX-powered real-time map integration and vendor management; scaled to 500+ daily active shipments.

EDUCATION

Ramrao Adik Institute of Technology 2016 – 2020
B.E. — Electronics Engineering | Mumbai, India

Attain U Nov 2020 – Oct 2021
Full Stack Web Development — MERN Stack | Online

CERTIFICATIONS

- Meta Frontend Developer Professional Certificate
- The Fundamentals of Digital Marketing — Google
