Prakhar Tripathi

Bengaluru, India — +91-8052288647 — tripathi.prakhar@outlook.com
LinkedIn — GitHub — LeetCode — Portfolio

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript
- **Frameworks & Technologies:** Spring Boot, Hibernate, REST APIs, Microservices, React.js, Node.js
- **Databases & Tools:** MySQL, PostgreSQL, Redis, Docker,Maven, Git, Postman
- **Testing & Cloud:** JUnit 5, Mockito, CI/CD, Vercel, Render

PROFESSIONAL EXPERIENCE

Open Source Contributor – Ignix Lite (Mindfire Digital) **Jul 2026**
TypeScript, Node.js, MCP, tiktoken *Remote*

- Implemented dynamic GPT-4 token accounting across the engine and MCP modules using **tiktoken**, replacing hardcoded counts with runtime calculation
- Improved the accuracy of token usage reporting across success and error execution paths by replacing static counts with live calculation
- Added session-level token usage tracking and integration tests; feature was **merged into the project's development branch** (PR #197)

CodeAlpha **Jun 2026 – Present**
Java Developer Intern *Remote*

- Developing Java-based applications while applying OOP, data structures, and backend development concepts

SyntecxHub **Jan 2026 – Feb 2026**
Java Developer Intern *Remote*

- Built **3+ backend modules** using **Java and Spring Boot**, leveraging multithreading, collections, and clean architecture principles

KEY PROJECTS

Shortify – Distributed URL Shortener Microservices Stack | *Java, Spring Boot, Spring Security, React.js, MySQL, Redis, Apache Kafka*

- Engineered a distributed URL Shortener using a **database-per-service microservices architecture** with **Spring Boot**, **MySQL**, and API Gateway
- Implemented **event-driven click tracking analytics** via **Apache Kafka** messaging streams and secured endpoints with stateless **Spring Security JWT filters**
- Optimized hot-path redirection latency below 50ms using a **Redis LRU cache** and a collision-resistant **Base62** short-code generator

ToolRent – Multi-Tenant SaaS Platform for Equipment Rental | *Java, Spring Boot, Spring Security, React.js, PostgreSQL, Redis, Docke*

- Built a **full-stack multi-tenant SaaS platform** implementing **subdomain-based tenant resolution** and complete data isolation per tenant
- Designed **RESTful APIs** with **JWT-secured endpoints** and RBAC-based access control across tenant admin and customer roles
- Integrated **Razorpay payment gateway** with conflict-free booking validation, and deployed via **Docker Compose** with **Redis caching**

POS Pro – Full-Stack Point of Sale System | *Java, Spring Boot, Spring MVC, React.js, MySQL, JWT, Docker*

- Developed a **full-stack POS system** supporting real-time billing, inventory management, and sales reporting
- Implemented **RBAC-based JWT authentication** with role-specific dashboards for admin, manager, and cashier personas via **Spring Security**
- Designed and exposed **10+ RESTful API endpoints** for billing, inventory CRUD, and reporting, documented via **Swagger/OpenAPI**

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU) **Jun 2024**
B.Tech in Computer Science and Engineering | CGPA: 7.20 *Lucknow, UP*

CERTIFICATIONS

Java Full Stack Development Program **2022 – 2023**
TAP Academy *Bengaluru, Karnataka*

Programming with Python 3.X **Jun 2026**
Simplilearn SkillUp *Certificate Code: 10351570*
