John Doe

AI Automation Specialist

john.doe.dummy@example.com | +1 (555) 123-4567 | Ahmedabad, Gujarat, India | linkedin.com/in/johndoe-dummy | github.com/johndoe-dummy

PROFESSIONAL SUMMARY

Detail-oriented AI Automation Specialist with 3+ years of experience designing and deploying intelligent workflow automations using tools such as n8n, Zapier, and Power Automate, integrated with AI/LLM APIs (OpenAI, Anthropic Claude). Proven track record of reducing manual workload by automating cross-departmental processes and building AI-driven chatbots and internal assistants. (This is a dummy/sample resume for demonstration purposes.)

CORE SKILLS

Automation Platforms:	n8n, Zapier, Make (Integromat), Power Automate, UiPath
AI / LLM Integration:	OpenAI API, Anthropic Claude API, Prompt Engineering, RAG pipelines
Programming:	Python, JavaScript, SQL
Integrations:	REST APIs, Webhooks, JSON, OAuth
Other Tools:	Google Workspace APIs, Slack API, Airtable, PostgreSQL, Docker

PROFESSIONAL EXPERIENCE

AI Automation Specialist – Nimbus Tech Solutions (Dummy Company)

Ahmedabad, India | Jan 2023 – Present

- Designed and deployed 25+ end-to-end automation workflows using n8n and Zapier, integrating CRM, email, and support ticketing systems.
- Built an internal AI chatbot using the Claude API to handle Tier-1 customer support queries, reducing response time by 40%.
- Integrated OpenAI and Anthropic APIs into internal tools for document summarization and automated report generation.
- Automated recurring data-entry and reporting tasks across sales and finance teams, saving approximately 20 hours/week of manual effort.
- Collaborated with cross-functional teams to identify automation opportunities and translated business requirements into technical workflows.

Junior Automation Engineer – BrightPath Digital (Dummy Company)

Ahmedabad, India | Jun 2021 – Dec 2022

- Assisted in building Power Automate workflows to streamline HR onboarding and approval processes.
- Developed Python scripts to connect third-party APIs and automate data transfer between platforms.
- Maintained documentation for over 15 automated workflows and provided training to internal teams.

KEY PROJECTS

AI-Powered Email Triage System: Built an automated pipeline using n8n and the OpenAI API to classify and route incoming support emails, cutting manual triage time by 60%.

Meeting Notes Automation: Created a workflow that transcribes meeting recordings and generates AI-summarized action items delivered directly to Slack.

EDUCATION

Bachelor of Technology in Computer Science – Gujarat Technological University (Dummy Institution), 2021

CERTIFICATIONS

- n8n Automation Professional (Dummy Certification)
- Prompt Engineering for Developers – DeepLearning.AI (Dummy)
- Microsoft Power Automate Fundamentals (Dummy)
